Subject: California's Applications for an Aquifer Exemption for the Arroyo Grande field

David:

The Division of Oil, Gas, and Geothermal Resources (Division) has placed in the mail today its application to exempt the Dollie Sands in the Arroyo Grande oil field. Attached is the transmittal letter from the Division, a concurrence letter from the State Water Resources Control Board, and a copy of the comments received from public comments and the State's responses. Although we have placed all this information on the DVD that we have mailed today, this information is also available on the Division's website. We look forward to working with the United States Environmental Protection Agency to answer questions and provide any additional information necessary to process this application. If you have any questions, please feel free to contact me.

Sincerely,

Robert S. Habel, Special Assistant

Division of Oil, Gas, and Geothermal Resources
